Dear Teacher,

As you know very well, the single most important thing determining the atmosphere of a classroom is the attitude students bring into it. You are also aware how difficult it is to determine a child's attitude from an application form. For that reason, we ask each student applicant to obtain a recommendation from a former teacher who has first-hand experience with their classroom behavior.

If you could take a few minutes and give us your impressions about the applicant's attitude toward authority, responsibility for homework, and eagerness to learn, we would greatly appreciate it. Please place your comments in an envelope and return it to:

Heritage Christian Academy or fax: (270) 885-0094

Thank you for your assistance in this important matter,
