The ACSI accreditation team visited the campus of HCA from Sunday, April 28 through Wednesday, May 1. During that time, they observed classroom instruction, met with parents, students, and teachers, as well as examined our facilities and financial documentation. In their

final report, they highlighted the size of the school and good condition of the facilities, and the possibilities for growth and expansion. They recognized a positive relationship between the board members and the administration. With regard to recommendations, they noted the continuing progress on Professional Development opportunities for staff, continuing progress on connecting instructional practices to the skills that should be present for each student at the end of each grade level, and recognizing staff members with leadership potential within the faculty of HCA. This process resulted in a comprehensive overview of the mission of HCA and a thorough review of the minute details that occur on a daily basis. Many items were a cause for celebration and some items caused a hard look in the mirror. I am excited for the future of our school and a renewed focus on being a place of academic excellence based on Biblical principles.
